GENERAL
Sup. Doc.

20617

INTRODUCTION.

Copies of the Atlantic Journal are in the Library of the Harvard Museum of Comparative Zoology; Library of Harvard University; Library of the Arnold Arboretum; Library of the New York Botanical Garden; New York Public Library; Yale University Library; Library of the British Museum; Library of the Missouri Botanical Garden; Library of the State Historical society of Wisconsin (numbers 1 and 2 only) Library of Congress; The Newberry Library (The Ayer Collection, numbers 1-7 only); Library of the Historical society of Pennsylvania; and the Fitzpatrick Collection.

Full Title.

Atlantic Journal / and / Friend of Knowledge; / a cyclopedic journal and review / of universal science and knowledge: / Historical, natural, and medical arts and sciences: / industry, agriculture, education, and every useful information: / with numerous figures. / ----- Editor C.S.Rafinesque, / Professor of Historical and Natural Sciences, etc. / ---- Vol II. summer of 1833. no.6.

made.

Society publications are entered under the name of the society, with cross references from the name of the publication, except in the case of proceedings or transactions.

Publications of observatories are entered under the names of the places in which the observatories are situated or of the uni-

NOTE.

Special attention is called to the distinct purpose of this edition. It is to provide a basis for a complete and correct list, but to serve in the meantime as a check list.

To convenience corrections and additions in its use as a check list, it has been printed on writing paper, recto page, with wide margins. But the text itself is of the standard page (type measure) of the Library publications.

INTRODUCTION.

The present publication is a preliminary edition of a list of periodicals, transactions of societies, and allied publications currently received in the libraries of the District of Columbia. A subsequent edition will embody whatever additions and corrections may appear necessary, and will include a classified index. The present edition is, therefore, merely provisional—a basis for a complete and correct list, and in the meantime useful as a check list.

As to publications received by other libraries, dependence has been had upon the lists furnished by those libraries. The returns submitted by them have been accepted and printed without changes other than those requisite for bibliographical uniformity.

The titles of publications received by the Smithsonian Institution are as reported by the Smithsonian authorities. The letters "SC." indicate those reported by them as currently received at the Smithsonian and sent directly to the Library of Congress to form there a part of the Smithsonian deposit.

The titles of Government documents received by the Library of Congress will be given in a later separate publication. They have not been included in the present list. Titles of such documents reported by other libraries have, however, been included, and where taken also by the Library of Congress that fact has been noted. Uniformity would, of course, have required that all such titles should be either included or excluded, but the line of demarcation is a difficult one and could not be satisfactorily drawn without a delay that seemed unnecessary in the case of this preliminary edition.

The arrangement of the present list is as follows:

Publications are entered under the first word of the title.

Societies are entered under their titles, not under the places where located. From these, however, cross references have been made.

Society publications are entered under the name of the society, with cross references from the name of the publication, except in the case of proceedings or transactions.

Publications of observatories are entered under the names of the places in which the observatories are situated or of the university with which they are connected.

The times of issue of periodicals are indicated as follows: d., daily; w., weekly; semi-m., semi-monthly; m., monthly; bi-m., bi-monthly; q., quarterly; semi-a., semi-annually; y., yearly. The letters at the end of the lines show the libraries by which the publications are taken.

A. P. C. GRIFFIN,
Chief of Division of Bibliography.

HERBERT PUTNAM,
Librarian of Congress.

WASHINGTON, D. C., *June 17, 1901.*
